

## Toro Z Master G3 High Performance Designed for the Pros, by the Pros

The Toro Z Master G3 High Performance range was developed with the serious landscape professional in mind. It's technology that refines the Z Master to make a great commercial mower even better.

### OUTSTANDING PERFORMANCE

Z Master G3 models have a low centre of gravity, adding more stability for greater handling on hills. And while manoeuvrability on Z Master mowers has always been outstanding, now it's simply superior. Of course, the true judge of a mower's performance is the customer who looks at the lawn after you've finished, and your customers will definitely be pleased with the immaculate after-cut appearance.

#### DURABILITY & RELIABILITY

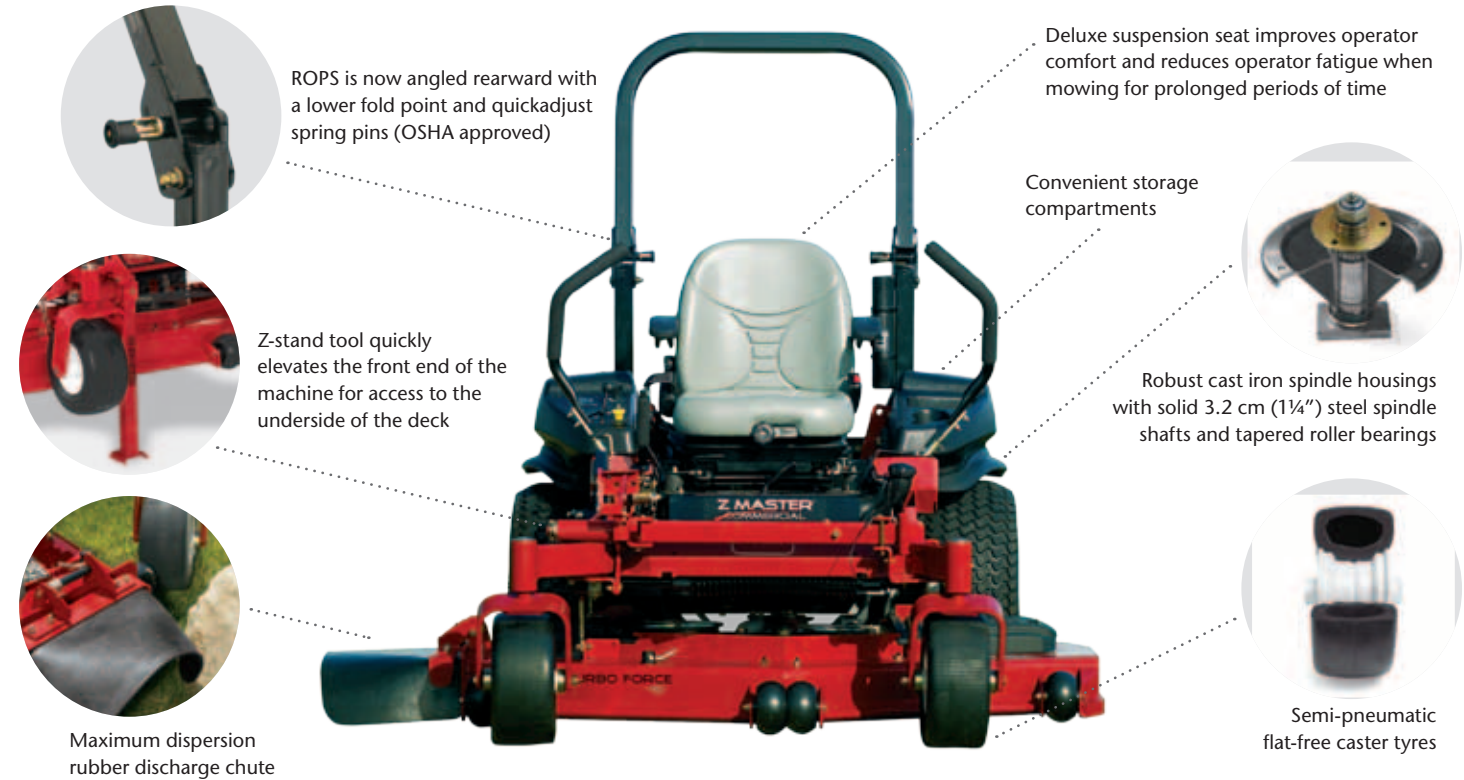

- Cutting platform that's 33% thicker and 75% stronger than the ordinary 10-gauge steel found on many decks
- Long-lasting spindle housings, shafts, frame and wheel assemblies
- Top-quality commercial-grade engines
- Everything from flat-free tyres to heavy-duty air filtration for long-term service

#### PRODUCTIVITY

- High-capacity, 14cm (5½") deep deck design
- Exclusive TURBO FORCE adjustable discharge baffle to fine-tune cutting performance
- Comfortable, easy-to-use controls

#### EASY MAINTENANCE

It couldn't be called a Toro if it wasn't built with ease of use in mind. From oil changes to leveling decks to height adjustments, working on Z Master G3 mowers is simple and easy.

MODEL NUMBER	FEATURE SET	ENGINE	CUTTING DECK	ACRES/HR*	HECTARES/HR*
74941CP	High Performance	29 HP Kawasaki	48" Turbo Force	4.2	1.7
74943CP	High Performance	29 HP Kawasaki	52" Turbo Force	4.4	1.8
74945CP	High Performance	29 HP Kawasaki	60" Turbo Force	5.1	2.1
74960CP	High Performance	34 HP Kohler	60" Turbo Force	5.9	2.4
74961CP	High Performance	34 HP Kohler	72" Turbo Force	7.1	2.9

\* Calculated at 85% efficiency for overlap, stops and turnarounds.

#### DELUXE SUSPENSION SEAT

Not only will you be comfortable choosing a Z Master G3, you'll be comfortable riding on one. The custom seat features thick cushions, large bolsters and 3-D isolator mounts that absorb bumps and vibrations to reduce operator fatigue.

#### SMOOTH, POWERFUL RESPONSE

The unitized pump and wheel motor use proven commercial hydraulic components while eliminating hoses and other potential leak points. You'll get a smoother, faster response while enjoying an even more reliable machine.

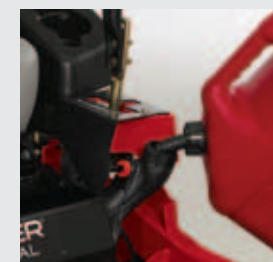

#### SOLID DECK SUPPORT

Robust hanger castings, solid links and race-inspired deck struts with rubber bushings combine to eliminate deck sway, ensuring a clean, level cut every time. You'll also appreciate the easy height-of cut system, which allows for adjustment in 6.4 mm (1/4") increments over a 2.5–14 cm (1"–5½") range, and the new transport position lockout.

#### EVERYTHING AT A GLANCE

The easy-to-see instrument panel includes a digital hour meter, fuel gauge, voltage meter and diagnostic indicators. All the information you need is available at a glance.

#### FILL UP WITH EASE

The 45 litre (10 gallon) tank has a single fill point, so whether you're using a fuel can or fueling on a trailer at the pump, filling up is simple and easy.

#### TURBO FORCE CUTTING TECHNOLOGY

Toro blends toughness with precision by combining 7-gauge, high-strength steel, 6.4 mm (1/4") thick flex-resistant blades, massive spindle assemblies, a rubber discharge chute and a rugged bullnose front bumper with amazing grass cutting capabilities. The patented TURBO FORCE adjustable front baffle lets you fine tune the performance to get the exact cut and look you want under a variety of conditions. Easily adapt to the on-site conditions for a quality cut and beautiful after-cut appearance.
